Independent Auditor's Report

To the Honorable Board of Selectmen
Town of Shrewsbury, Massachusetts

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Shrewsbury, Massachusetts, as of and for the year ended June 30, 2017 (except for the Shrewsbury Contributory Retirement System, the Shrewsbury Electric and Cable Operations (SELCO) – Electric and the Shrewsbury Electric and Cable Operations (SELCO) – Cable, which are as of and for the year ended December 31, 2016), and the related notes to the financial statements which collectively comprise the Town of Shrewsbury, Massachusetts' basic financial statements as listed in the table of contents. We did not audit the financial statements of the Shrewsbury Electric and Cable Operations (SELCO) – Electric and the Shrewsbury Electric and Cable Operations (SELCO) – Cable, which are both major funds and 43 percent and 25 percent of the assets, 38 percent and 28 percent of the net position, and 52 percent and 32 percent of the operating revenues of the business-type activities.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Shrewsbury Electric and Cable Operations (SELCO) – Electric and the Shrewsbury Electric and Cable Operations (SELCO) – Cable, which represent 43 percent and 25 percent of the assets, 38 percent and 28 percent of the net position, and 52 percent and 32 percent of the operating revenues of the business-type activities. Those statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Shrewsbury Electric and Cable Operations (SELCO) – Electric and the Shrewsbury Electric and Cable Operations (SELCO) – Cable, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of

the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Shrewsbury, Massachusetts, as of June 30, 2017, (except for the Shrewsbury Contributory Retirement System, the Shrewsbury Electric and Cable Operations (SELCO) – Electric and the Shrewsbury Electric and Cable Operations (SELCO) – Cable, which are as of and for the year ended December 31, 2016), and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension plan and other post employment benefit plan schedules as listed on the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Shrewsbury, Massachusetts' basic financial statements. The Supplementary Schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Supplementary Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 21, 2018, on our consideration of the Town of Shrewsbury Massachusetts' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Shrewsbury, Massachusetts' internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

As management of the Town of Shrewsbury, we offer readers of these financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to look at the Town's financial performance as a whole. Readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the Town's financial performance.

Financial Highlights

- The Town's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$200,561,991 (net position) for the fiscal year reported. This compares to the previous year when the Town's total net position was \$190,102,641 for an increase of \$10,459,350 (6%).
- At the close of the current fiscal year, the Town's governmental funds reported total ending fund balance of \$28,142,830, an increase of \$7,979,688 (40%) in comparison with prior year.
- The General Fund's total fund balance decreased \$194,777 (1%) to \$19,752,867. The ending General fund balance is 15% of revenues, transfers in and premium on bonds and notes, and 15% of expenditures and transfers out.
- Total liabilities of the Town decreased \$5,732,573 to \$148,024,267 during the fiscal year. This change was mainly the result of an increase in the other post-employment benefit (OPEB) liability of \$4,643,635 and a decrease in net debt obligation liabilities of \$7,857,291.
- The Town had General fund free cash certified by the Department of Revenue in the amount of \$6,822,465. The key factors that attributed to the free cash amount for fiscal year 2017 were unexpended/unencumbered appropriations of \$1,520,200, excess over budget state and local receipts of \$2,610,500, premium on bonds of \$842,500 and prior year unappropriated free cash of \$2,337,300.

Overview of the Financial Statements

This discussion and analysis is intended to serve, as an introduction to the Town of Shrewsbury's basic financial statements. These basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of finances, in a manner similar to private-sector business.

The *statement of net position* presents information on all assets, deferred outflows of resources, liabilities and deferred inflows of resources with the net difference between them reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities include general government, public safety, public works (including water), education, health and human services, culture and recreation, employee benefits and insurance, state assessments and interest. The business-type activities include the sewer, solid waste, electric light and community cablevision activities.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund statements focus on *near-term inflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decision. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town of Shrewsbury adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Proprietary funds. The Town maintains the following type of proprietary fund.

Enterprise funds are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town uses enterprise funds to account for its sewer, solid waste, electric light and community cablevision activities.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$200,561,991 at the close of fiscal year 2017.

Net position of \$165,894,391 (83%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the investment in its capital assets is reported net of its related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the net position \$22,618,836 (11%), represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* \$12,048,764 (6%) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town is able to report positive balances in two of the three categories of net position for its governmental activities, business-type activities and the government as a whole. The unrestricted governmental activities, business-type activities and the government as a whole resulted in a negative balance mainly due to the accrual of the OPEB obligation and net pension liabilities that are required under GASB to be recognized in the Town's financial statements. These liabilities are presented on the statement of net position.

The governmental activities net position increased by \$1,297,391 (1%) during the current fiscal year, which reflects the general fund's results of operation. The key elements of the increase in net position for fiscal year 2017 was attributed to the acquisition of \$10,837,031 in new capital assets exceeding the depreciation expense (normally spread out over the useful life of the asset) for the year of \$7,908,909, as a result of recognizing the change in the net pension liability of \$849,472 and in the deferred outflows/(inflows) of resources related to pensions of \$1,252,150; and decreases as a result of the net change in debt of \$3,830,782 and in recognizing this year's OPEB obligation of \$4,767,305.

There was an increase of \$9,161,959 (10%) in net position reported in the business-type activities. Of this, there were increases in the sewer fund of \$2,788,877, the electric light fund of \$2,591,323 and the cable operations fund of \$3,795,099 and a decrease in the solid waste fund of \$13,340.

Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing financing requirements. In particular, the *general fund unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, governmental funds reported combined ending fund balances of \$28,142,830, an increase of \$7,979,688 (40%) in comparison with the prior year.

Breakdown of the governmental funds are as follows:

- Restricted fund balance – \$14,278,319 (51%).
- Committed fund balance – \$700,090 (3%).
- Assigned fund balance – \$8,854,371 (31%).
- Unassigned fund balance – \$4,310,050 (15%).

Major Governmental Funds

At the end of the fiscal year, the General Fund reported a total fund balance of \$19,752,867, decreasing \$194,777 (1%) from the prior year. Of the \$19,752,867, the unassigned amount is \$9,386,984 (47%), the assigned amount is \$8,854,371 (45%) and the restricted amount is \$1,511,512 (8%). General fund revenues were \$7,115,110 (6%) more than the prior fiscal year while expenditures also increased by \$10,673,823 (9%). Other activity in the General Fund, are net transfers in from other funds of \$353,448 and receipt of a premium on bonds and notes of \$842,467.

The main components of the increase in general fund revenues from the prior year are related to increases in property taxes in the amount of \$2,443,533 (4%), in charges for services of \$652,947 (12%) and in the intergovernmental "on-behalf" receipts of \$3,712,941 (37%); and a decrease in investment income of \$549,847 (84%).

The major changes in general fund expenditures from the prior fiscal year are as follows:

- Increase in General government expenditures of \$777,863 (12%).
- Increase in Public safety expenditures of \$1,116,688 (14%).
- Increase in Public works (including water) expenditures of \$2,343,959 (47%).
- Increase in Education expenditures of \$1,922,818 (3%).
- Increase in Employee benefits and insurance expenditures of \$4,742,758 (18%).

The *Library Building Project Fund* is used to account for financial resources for the building of a new library. The fund has a deficit balance of \$1,787,763 showing an increase of \$9,224,300 for the fiscal year. The Town has a temporary bond anticipation note outstanding of \$4,055,000. The activity of the fund consisted of revenues of \$2,722,878, expenditures of \$3,243,578 and the issuance of bonds for \$9,745,000.

Major Proprietary Funds

The proprietary funds statements share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status.

The *Sewer Fund* is the financing and operations of the Town's sewer system. The sewer fund shows an increase of \$2,788,877 (9%) in total operations. This change is mainly attributed to operating revenues exceeding current operating costs by \$2,758,353, intergovernmental revenues of \$8,590, interest expense of \$108,659 and net transfers in from the governmental funds of \$130,593. Operating revenues increased by \$1,406,825 (19%) while operating expenses also increased by \$366,609 (6%) from the prior year.

The *Solid Waste Fund* is the financing and operations of the Town's solid waste operations. The solid waste fund shows a decrease of \$13,340 (7%) attributed to operational expenditures exceeding revenues by \$858,094 and transfers in from the general fund for \$844,754. Operating revenues decreased by \$29,241 (3%) and while operating expenses increased by \$10,765 (1%) from the prior year.

The *Electric Light Fund* is used to account for activities of the government's electric distribution operations. The fund at December 31, 2016 shows an increase of \$2,591,323, attributed to operating revenues exceeding operating expenses by \$2,974,669, investment income of \$15,440, other revenue of \$16,662, interest expense of \$174,506 and transfers to the general fund of \$240,942. The Electric Light fund is audited by other auditors and has issued a separate audit report which has further details.

The *Cable Operations Fund* provides transmission of cable television signals, and the installations necessary for the customers to receive them. The fund at December 31, 2016 shows an increase of \$3,795,099, attributed to operating revenue exceeding operating expenses of \$4,675,802, a loss on the sale/disposal of equipment of \$80,703 and transfers to the general fund of \$800,000. The Cable Operations fund is audited by other auditors and has issued a separate audit report which has further details.

General Fund Budgetary Highlights

The final general fund budget for fiscal year 2017 was \$120,161,845. This is an increase of \$4,151,398 (4%) over the previous year's budget.

There was an increase between the original budget and the final amended budget. The changes are attributed to votes at the various special town meetings and the annual town meeting in May 2017.

General fund expenditures were less than budgeted by \$7,116,403. Of the \$7,116,403 in under budget expenditures, \$5,596,246 has been carried over to fiscal year 2018.

There is a negative variance in interest on investments of \$22,833 as a result of the current economy.

The variance with the final budget was a positive \$4,817,339 consisting of a revenue surplus of \$3,297,182 and an appropriation surplus of \$1,520,157.

Capital Asset and Debt Administration

Capital Assets. The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2017, (December 31, 2016 for the electric light fund and the cable operations fund) amounts to \$163,090,509 and \$60,821,564, respectively.

The investment in capital assets includes land, construction in progress, buildings and renovations, machinery, equipment and other and infrastructure.

Major capital acquisitions during the current fiscal year in the governmental type funds included the following:

- Foreclosure property for \$29,415.
- Town Hall improvements for \$381,784.
- Police vehicles and equipment purchases for \$146,175.
- Fire Department vehicles and equipment purchases for \$671,239.
- Department of public works vehicles and equipment for \$403,034.
- Road and Water infrastructure improvements for \$2,093,162.
- Water Treatment Plant engineering for \$79,657.
- Schools' improvements for \$3,222,796.
- Coolidge School parking lot improvements for \$115,822.
- Mountain View Cemetery Columbaria for \$92,472.
- Library building improvements for \$3,243,578.
- Library vehicle purchase for \$22,448.
- Parks vehicle purchase for \$47,858.
- Rowing Center renovations for \$104,148.
- Dean Park improvements for \$183,443.

Major capital acquisitions during the current fiscal year in the business-type funds included the following:

In the Sewer Fund:

- Sewer vehicle purchase for \$49,219.

Debt Administration. The Town's outstanding governmental debt, as of June 30, 2017, totaled \$52,925,716. The primary debt is school debt of \$33,255,000, land acquisition debt of \$5,935,000, building improvements and renovations of \$13,125,000, water improvements for \$525,000 and septic Title V debt of \$85,716.

The business-type funds have \$9,874,973 consisting of sewer activity debt of \$4,369,973 and electric light activity debt of \$5,505,000 (at December 31, 2016).

The Town also has bond anticipation notes outstanding as of June 30, 2017 in the amount of \$7,649,000 for governmental activities for the library building project, school renovations and the water treatment facility designs.

Please refer to notes 3D, 3F and 3G for further discussion of the capital and debt activity.

Next Year's Annual Town Meeting

The Town of Shrewsbury operates under the "Representative Meeting" concept where each registered voter elects a representative to vote in adopting of Town budgets and appropriations. The financial statements for June 30, 2017 do not reflect the fiscal year 2018 Town Meeting action except for the free cash and continuing appropriations amounts.

The Annual Town Meeting on May 15, 2017 and Special Town Meeting on May 17, 2017 authorized a fiscal year 2018 operating and capital budget as follows:

From the tax levy		\$	111,845,292
From community cablevision fund			800,000
From electric light fund			801,794
From sewer fund			8,056,233
From solid waste fund			923,500
From Other Available Funds:			
General Fund:			
Unassigned fund balance:			
Free cash	\$	3,175,639	
Continuing appropriations		82,486	3,258,125
Bond premium			750,000
Non-major Governmental Funds:			
Cemetery sale of lots		18,000	
Cemetery Stabilization Fund		25,000	
Infiltration and inflow fund		360,000	
Interest on school borrowing fund		8,100	
Septic loan repayment fund		15,100	
Water conservation gift fund		50,000	476,200
			<u> </u>
			<u>\$ 126,911,144</u>

Requests for Information

This financial report is designed to provide a general overview of the Town of Shrewsbury’s finances for all those with an interest in the government’s finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Town Accountant, Town Hall, 100 Maple Avenue, Shrewsbury, Massachusetts.

TOWN OF SHREWSBURY, MASSACHUSETTS
Reconciliation of the Governmental Funds Balance Sheet
Total Fund Balances to the Statement of Net Position
For the Year Ended June 30, 2017

Total Governmental Fund Balances	\$	28,142,830
Capital Assets (net) used in governmental activities are not financial resources and therefore, are not reported in the funds.		163,090,509
Revenues are recognized on an accrual basis of accounting instead of a modified accrual basis.		17,085,878
Certain changes in the net pension liability are required to be included in pension expense over future periods. These changes are reported as deferred outflows of resources or (deferred inflows of resources) related to pensions.		4,362,426
Long Term liabilities are not due and payable in the current period and therefore, are not reported in the governmental funds:		
Bonds Payable	\$ (52,925,716)	
Deferred Charges on Debt Refunding	(228,741)	
Other Post Employment Benefits Payable	(42,827,403)	
Net Pension Liability	(17,481,480)	
Compensated Absences	<u>(1,310,494)</u>	(114,773,834)
In the statement of activities, interest is accrued on outstanding long term debt, whereas in governmental funds, interest is not reported until due.		<u>(979,673)</u>
Net Position of Governmental Activities	\$	<u><u>96,928,136</u></u>

The Notes to the Financial Statements are an integral part of this Statement.

TOWN OF SHREWSBURY, MASSACHUSETTS
Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended June 30, 2017

Net Change in Fund Balances - Total Governmental Funds \$ 7,979,688

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and are reported as depreciation expense:

Capital Outlay Purchases	\$ 10,837,031	
Depreciation	<u>(7,908,909)</u>	2,928,122

Revenue in the Statement of Activities that do not provide current financial resources are fully deferred in the Statement of Revenues, Expenditures and Changes in Fund Balances. Therefore, the recognition of revenue for various types of accounts receivable (i.e., real estate and personal property, motor vehicle excise, etc.) differ between the two statements. This amount represents the net change in deferred inflow - unavailable revenue. (3,161,985)

The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any effect on net position:

Repayment of Debt Principal	5,845,099	
Proceeds from Bonds	(9,745,000)	
Amortization of Net Gain/Loss on Refunding	<u>69,119</u>	(3,830,782)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Net Change in Compensated Absences	(74,191)

The Notes to the Financial Statements are an integral part of this Statement.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the Town of Shrewsbury, Massachusetts (the Town) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles. The significant Town accounting policies are described herein.

A. Reporting Entity

The Town was incorporated in 1727 under the laws of the Commonwealth of Massachusetts. The Town is governed by an elected five member Board of Selectmen.

For financial reporting purposes, the Town has included all funds, organizations, account groups, agencies, boards, commissions and institutions. The Town has also considered all potential component units for which it is financially accountable as well as other organizations for which the nature and significance of their relationship with the Town are such that exclusion would cause the basic financial statements to be misleading or incomplete.

Blended component units are entities that are legally separate from the Town, but are so related that they are, in substance, part of the Town's operations, so data from these units are combined with data of the primary government. The following component unit is blended within the primary government in the fiduciary funds:

The Shrewsbury Contributory Retirement System (the System) was established to provide retirement benefits to Town employees, the Town Housing Authority employees, and their beneficiaries. The System is governed by a five-member board comprised of the Town Accountant (ex-officio), two members elected by the System's participants, one member appointed by the Board of Selectmen, and one member appointed by the Board members. The System is presented using the accrual basis of accounting and is reported as a pension trust fund in the fiduciary fund financial statements.

The system did not issue a separate audited financial statement. The System issues a publicly available unaudited financial report in accordance with guidelines established by the Commonwealth of Massachusetts Public Employee Retirement Administration Commission (PERAC). That report may be obtained by contacting the System located at 100 Maple Avenue, Shrewsbury, Massachusetts.

The Shrewsbury Electric and Cable Operations (SELCO) - The condensed financial statements of the Shrewsbury Electric and Cable Operations (SELCO) (the Department) are included in the Proprietary Fund Types column and Business-Type Activity column of the basic financial statements. The complete financial statements can be obtained from their respective administration offices at 100 Maple Street, Shrewsbury, Massachusetts.

The Town is responsible for electing the governing board of the Shrewsbury Housing Authority. This related organization is excluded from the financial reporting entity because the Town's accountability does not extend beyond the Town electing the board members. Audited financial statements are available from the respective organization. A description of the related organization follows:

The Shrewsbury Housing Authority is a public housing agency that provides housing assistance to eligible and qualified low and moderate income families, the elderly and handicapped. The housing authority is an autonomous and self-sufficient agency under the State Executive Office of Communities and Development. The Town has no significant influence over management, budget or policies of the authority.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

B. Government-Wide and Fund Financial Statements

Government-wide financial statements

The government-wide financial statements (e.g., statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which are primarily supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which are supported primarily by user fees and charges.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund financial statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Non-major funds are aggregated and displayed in a single column.

Because governmental fund statements are presented using a measurement focus and basis of accounting different from that used in government-wide statements' governmental column, a reconciliation is presented that briefly explains the adjustments necessary to reconcile ending net position and change in net position.

Major Fund Criteria

Major funds must be reported if the following criteria are met:

- If the total assets, liabilities, revenues or expenditures/expenses of an individual governmental fund are at least 10 percent of the corresponding element (assets, liabilities, etc.) for all funds of that category or type (total governmental funds),

and

- If the total assets, liabilities, revenues or expenditures/expenses of the individual governmental funds are at least 5 percent of the corresponding element for all governmental funds combined.

Additionally, any other governmental fund that management believes is particularly significant to the basic financial statements may be reported as a major fund.

Proprietary and fiduciary funds are reported by fund type.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide financial statements

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis* of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Town's enterprise funds and various other functions of the Town. Elimination of these charges would distort the direct costs and program revenues of the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported.

Fund financial statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis* of accounting. Under the modified accrual basis concept, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon thereafter to be used to pay current liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, excises and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria is met. Expenditure driven grants recognize revenue when the qualifying expenditures are incurred and all other grant requirements are met.

The Town reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *library building fund* is used to account for financial resources to construct a new library.

The Town reports the following major proprietary funds:

The *sewer fund* is used to account for the sewer activities.

The *solid waste fund* is used to account for municipal and residential solid waste collection, processing and disposal services activities.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

The *electric light fund* is used to account for activities of the government's electric distribution operations.

The *cable operations fund* provides transmission of cable television signals, and the installations necessary for the customers to receive them.

The non-major governmental fund consists of other special revenue, capital projects and permanent funds that are aggregated and presented in the *non-major governmental funds* column on the governmental funds financial statements. The following describes the general use of these fund types:

The *special revenue fund* is used to account for the proceeds of specific revenue sources (other than permanent or capital projects funds) that are restricted by law or administrative action to expenditures for specified purposes.

The *capital projects fund* is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Enterprise and Trust Funds).

The *permanent fund* is used to account for financial resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the governmental programs.

Additionally, the Town reports the following fund types:

Fiduciary fund financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting. Fiduciary funds are used to account for assets held in a trustee capacity for others that cannot be used to support the government programs.

The *Shrewsbury Employees Retirement System Pension trust fund* is used to account for the activities of the System, which accumulates resources to provide pension benefits to eligible retirees and their beneficiaries.

The *Other Post Employment Benefit Trust Fund* accounts for the activities of the Town's OPEB plan, which accumulates resources for retiree medical and life insurance benefits.

The *private-purpose trust fund* is used to account for trust arrangements, other than those properly reported in the permanent fund, under which principal and investment income exclusively benefit individuals, private organizations, or other governments.

The *agency fund* is used to account for assets held in a purely custodial capacity.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

D. Cash and Cash Equivalents

Cash balances from all funds, except those required to be segregated by law, are combined to form a consolidation of cash. Cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with an original maturity of three months or less from the date of acquisition. The Town maintains a cash and investment pool that is available for use by all funds. Each fund's portion of this pool is reflected on the combined financial statements under the caption, "cash and cash equivalents".

Excluding the permanent funds, investment income derived from major and non-major governmental funds is legally assigned to the general fund unless otherwise directed by Massachusetts General Laws (MGL).

Investment income from proprietary funds is maintained in those funds.

E. Investments

The Town maintains investments according to Massachusetts General Laws and adopted policies. Investments are reported according to the fair value hierarchy established by generally accepted accounting principles. Investments are defined as securities or other assets that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash. Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The hierarchy is based upon valuation inputs, which are assumptions that market participants would use when pricing an asset or a liability, including assumptions about risk.

Level 1 inputs are quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 inputs are directly observable for an asset or a liability (including quoted prices for similar assets or liabilities), as well as inputs that are indirectly observable for the asset or liability.

Level 3 inputs are unobservable for the asset or liability.

Certain investments, such as money market investments and 2a7-like external investment pools, are reported at amortized cost. 2a7-like pools are external investment pools that operate in conformity with the Securities and Exchange Commission's (SEC) Rule 2a7 as promulgated under the Investment Company Act of 1940, as amended and should be measured at the net asset value per share provided by the pool.

Additional investment disclosures are presented in these Notes.

F. Receivables

The recognition of revenues related to accounts receivable reported in the government-wide financial statements and fund financial statements are reported under the accrual basis of accounting and the modified accrual basis of accounting, respectively.

Property Taxes, Deferred Property Taxes, Taxes in Litigation, and Tax Liens

Property taxes are based on assessments as of January 1, 2016 and include betterments, special assessments and liens. Taxes are used to finance the operations of the Town for the fiscal year July 1st to June 30th. By law, all taxable property in the Commonwealth of Massachusetts must be assessed at 100% of fair cash value. Taxes are due and payable on July 1st. The Town has accepted the quarterly tax payment system. Under the quarterly tax payment system, the assessors make a preliminary tax commitment based on the prior year's net tax and may not exceed, with limited exceptions, fifty percent of that amount. The collector must mail preliminary tax bills each year by July 1st. The preliminary tax is payable in two equal installments. The first

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

installment is due on August 1st and the second installment is due on November 1st. After the Town sets the tax rate, the assessors make the actual tax commitment. If actual bills are mailed on or before December 31st, the balance remaining is payable in two equal installments. The first installment is due on February 1st and the second installment is due on May 1st. If bills are mailed after December 31st, the entire balance is not due until May 1st or thirty days after the bills were mailed, whichever is later. Any betterments, special assessments and other charges are added to the actual bills. Interest at the rate of 14% is charged on the amount of any preliminary tax or actual tax installment payment that is unpaid and delinquent and is charged only for the number of days the payment is actually delinquent. If actual tax bills are mailed after December 31st, interest will be computed from May 1st, or the payment due date, whichever is later. The Town has an ultimate right to foreclose on property for which taxes have not been paid. Property taxes levied are recorded as receivables. Revenues from property taxes are recognized in the fiscal year for which they have been levied.

The Town mailed preliminary tax bills for the fiscal year 2017 on June 29, 2016 and September 29, 2016, that were due on August 1, 2016 and November 1, 2016 and actual bills on December 29, 2016, and March 30, 2017, that were due on February 1, 2017 and May 1, 2017, respectively.

The Commonwealth of Massachusetts electorate in November, 1980, passed legislation known as Proposition 2 1/2, in order to limit the amount of revenue to be raised by taxation. The purpose of the legislation was to control the levy of taxes that are assessed to property owners of a Town.

The legal levy limit under Proposition 2 1/2 for fiscal year 2017 is as follows;

Legal Levy Limit Under Proposition	
2 1/2 for fiscal year 2017	\$ 65,771,491
Add: Debt Exclusion	<u>3,973,523</u>
Maximum Allowable Levy	<u><u>\$ 69,745,014</u></u>

The total amount raised by taxation was \$69,716,101.

The allowance for uncollectible accounts is based on historical trends and specific account analysis.

Excise Taxes

Excise taxes consist of motor vehicle excise. Excise taxes are assessed annually for each vehicle registered in the Town, and are recorded as receivables in the fiscal year of levy. The Commonwealth is responsible for reporting the number of vehicles registered and the fair value of those vehicles.

The tax calculation is the fair market value of the vehicle multiplied by the \$25 per \$1,000 of value.

The allowance for uncollectibles is estimated based on historical trends and specific account analysis.

User Charges

User charges in the governmental funds consist of water that is levied monthly based on individual meter readings and usage and are subject to penalties and interest if they are not paid by the respective due date. Liens are processed each year and are included as a lien on the property owner's tax bill.

User charges in the business-type funds consist of sewer, solid waste, electric light and cable operations that are levied monthly based on individual meter readings and usage and are subject to penalties and interest if they are not paid by the respective due date. Liens are processed each year and are included as a lien on the property owner's tax bill. Sewer liens are recorded as receivables in the fiscal year of the levy.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

The allowance for uncollectibles in the sewer fund is estimated based upon historical trends and specific account analysis. The solid waste enterprise fund is considered 100% collectible and, therefore, does not show an allowance for uncollectibles.

SELCO – Electric carries its accounts receivable at cost less an allowance for doubtful accounts. On a periodic basis, SELCO – Electric evaluates its accounts receivable and establishes an allowance for doubtful accounts, based on its history of past write-offs and collections and current conditions.

SELCO – Cable carries its accounts receivable net of an allowance for doubtful accounts to properly reflect the realizable value. On a periodic basis, the Department evaluates its accounts receivable and establishes an allowance for doubtful accounts, based on its history of past write-offs and collections and current conditions.

Departmental

Departmental receivables consist of assessor's fees, administrative fees and off-duty details.

The allowance for uncollectibles is based upon historical trends and specific account analysis.

Other Receivable (SELCO)

SELCO – Cable and SELCO – Electric are both enterprise funds of the Town of Shrewsbury and are under the management of the same Board of Commissioners. The accounts receivable from the Town departments and SELCO – Cable are for reimbursements to SELCO – Electric for costs in connection with shared operating expenses.

Other accounts receivable consists of money due to SELCO – Cable for advertising sales. The balance also has funds owed to SELCO – Cable for pole rentals.

Special Assessments

Special assessments consist of the water and street betterments in the general fund and Title V septic loan repayments in the nonmajor funds and sewer betterments in the business-type funds.

These receivables are considered 100% collectible and, therefore, do not report an allowance for uncollectibles.

Energy Conservation Loans

The Shrewsbury Electric and Cable Operations (SELCO) – Electric offers 0% interest energy conservation loans for residential and municipal customers. The loans are available for conversion of electric heating systems to energy efficient, non-electric heating systems or for other efficient upgrades, such as installation of energy efficient replacement windows, solar panels, geothermal heating systems, or additional insulation. The maximum loan amount is \$10,000 for residential loans; municipal loan amounts are determined and approved on a case by case basis. The maximum repayment period is sixty months for residential loans and varies with each municipal loan.

Due from Other Governments

Various federal and state grants for operating and capital purposes are applied for and received annually. For non-expenditure driven grants, revenue is recognized as soon as all eligibility requirements imposed by the provider have been met. For expenditure driven grants, revenue is recognized when the qualifying expenditures are incurred and all other grant requirements are met.

These receivables are considered 100% collectible and, therefore, do not report an allowance for uncollectibles.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

G. Materials and Supplies

Material and supplies in the electric light department are inventories of parts, accessories and fuel purchased for use in the utility business for construction, operation and maintenance purposes. The parts and accessories are stated at cost on a first-in-first-out (FIFO) basis. Fuel is valued using the average cost method.

Material and supplies inventory in the cable operations consist of parts and accessories for installations required for service, and are stated at cost using first-in-first-out (FIFO) method for valuing inventory.

H. Purchased Power Working Capital

Electric Light made an advance deposit to Massachusetts Municipal Wholesale Electric Company (MMWEC), the Electric Light's power supply agent. MMWEC requires that they hold a set amount of capital from which they may pay the power obligations when they are due. The funds are replenished as needed from the payments of monthly invoices to MMWEC.

I. Prepaid Expenses

Prepaid expenses in the electric light fund consist predominately of prepayments on purchased power. Prepaid expenses in the community cablevision fund are attributable to insurance, maintenance contracts and signal purchases.

J. Capital Assets

Capital assets, which include land, construction in progress, buildings and renovations, machinery, equipment and other, and infrastructure assets (e.g. roads, water mains, sewer mains, and similar items), are reported in the applicable governmental or business-type activity column of the government wide financial statements. Capital assets are recorded at historical cost or at estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at the estimated fair market value.

All purchase and construction costs in excess of \$10,000 are capitalized at the date of acquisition or construction, respectively, with expected useful lives of greater than one year.

Capital assets (excluding land and construction in progress) for the governmental activities and the sewer enterprise fund are depreciated on a straight-line basis. The estimated useful lives of fixed assets are as follows:

Capital Asset Type	Years
Buildings and renovations	10-40
Machinery, equipment and other	3-10
Infrastructure	20-50

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized and are treated as expenses when incurred. Improvements are capitalized.

The statutory provision for depreciation of the utility plant in the electric light enterprise fund is computed on a straight-line method at 3 percent of cost of plant in service at the beginning of the year, exclusive of land and land rights. Therefore no depreciation is taken in the year of plant additions. Management has determined that this method is not materially different than the estimated useful lives in accordance with GAAP. Massachusetts law stipulates that SELCO – Electric may exceed the 3 percent depreciation rate only with the approval of the DPU.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

SELCO – Electric charges maintenance to expense when incurred. Replacements and betterments are charged to the utility plant. At the time properties are retired, the cost of property retired less accumulated depreciation, salvage value, and any cash proceeds is charged to unappropriated earned surplus.

SELCO – Cable depreciation is computed using percentages ranging from three to twenty percent of the cost of cablevision plant. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred.

K. Restricted Cash and Cash Equivalents

Certain assets of the electric light fund are classified as restricted because they are maintained in separate bank accounts and their use is limited.

- The *depreciation fund* is restricted to specific uses by the General Laws of Massachusetts. Pursuant to provisions of the Commonwealth's General Laws, cash in an amount equivalent to the annual depreciation expense is to be transferred from unrestricted funds to the depreciation fund. Interest earned on the balance of the fund must also remain in the fund. Such cash may be used for the cost of utility plant, nuclear decommissioning costs, costs of contractual commitments, and deferred costs related to such commitments which the Municipal Light Board determines are above market value.
- The *rate stabilization reserve fund* was created as an aftermath of the Massachusetts Electricity Restructuring Act of 1997. The fund is for unexpected escalation in costs, such as the decommissioning of nuclear power plants before the end of their operating license, usual price spikes in fuel prices and transmission cost increases. During 2015, \$1,200,000 was transferred out of the fund to reduce purchased power costs. The rate stabilization fund balance at December 31, 2016 was \$4,113,208. The balance in the fund is offset by a corresponding deferred inflow of resources for the accumulated provisions of rate refund. These funds are comingled and deposited in investment pools. The total amount of these external investment pools as of December 31, 2016 was \$75,376,417, of which SELCO – Electric's ownership was approximately 5.46%.
- The *all requirements select energy termination trust fund* is used to account for SELCO – Electric participates in MMWEC's "All Requirements" power supply program. In this program, MMWEC enters into bulk power purchase contracts and other arrangements to meet the power supply needs of its members as efficiently and economically as possible. One of the contracts that MMWEC entered into on behalf of the All Requirements participants was the "Select Energy Contract." With this contract, MMWEC received power and energy through a 50 megawatt contract with Select Energy. The Select Energy contract provided system power for a term that ran through 2011. During the third quarter of 2005, the contract with Select Energy was terminated. MMWEC on behalf of the ten All Requirements participants received \$82 million in proceeds which they have deposited in a custodial account for the benefit of the current All Requirement participants. There is an irrevocable trust "All Requirements Select Energy Termination Trust" that was established that will protect the funds from creditors of both MMWEC and participants. The funds are to be used to offset power costs for replacement of energy and capacity above the costs that would have been incurred with the Select contract. SELCO's portion of the \$82 million buy-out was \$26,568,000. During 2016, \$1,200,000 was transferred out of the fund to reduce purchased power costs. The balance at December 31, 2016 was \$1,179,332. These funds are comingled and deposited in external investment pools. The total amount of these external investment pools as of December 31, 2016 was \$7,923,857, of which SELCO – Electric's ownership was approximately 14.87%.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

- The *investment in associated companies fund* is used to hold funds of the electric light fund's equity requirements. Under agreements with the New England Hydro-Transmission Electric Company, Inc. (NEH) and the New England Hydro-Transmission Corporation (NHH), SELCO-Electric has funded its equity requirements for the Hydro-Quebec phase II interconnection. SELCO-Electric's ownership interest is less than one quarter of one percent in both projects. The securities are stated at cost. Fair Market value approximates the stated value. The balance at December 31, 2016 was \$20,821.
- The *construction fund* is used to finance the following year's capital budget projects that have been approved by the Electric Light Commissioners.
- The *power cost adjustment fund* is a SELCO – Electric contingency fund established to mitigate power costs on an as needed basis.

L. Interfund Transfers

During the course of its operations, resources are permanently reallocated between and within funds. These transactions are reported as operating transfers in and operating transfers out.

In the government-wide financial statements, operating transfers between and within governmental funds are eliminated from the governmental activities in the statement of activities. Any residual balances outstanding between the governmental activities and business-type activities are reported in the statement of activities as "Transfers net".

In the fund financial statements, operating transfers between and within funds are not eliminated from the individual fund statements and are reported as operating transfers in and operating transfers out.

M. Deferred Outflows and Inflows of Resources

Government-wide financial statements

The government-wide financial statements statement of net position includes a separate section, listed below total assets, for *deferred outflows of resources*. This represents the usage of net position applicable for future period(s) and will not be recognized as expenditures until the future period to which it applies. Currently, the Town has two items in this category, *deferred loss on refunding and deferred outflows related to pensions*, reported on the government-wide statement of net position. A deferred loss is the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or the refunding debt. The deferred outflows related to pensions for future pension expenses is explained in note 4D. These amounts are deferred and recognized as outflows of resources in a future period.

In addition to liabilities, the statement of net position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has five types of items, *rate stabilization reserve, all requirements select energy termination trust, contribution in aid of construction, deferred gain on refunding and deferred inflows related to pensions*, which qualify in this category. The rate stabilization reserve is the offset of the restricted cash described above. The SELCO participates in MMWEC's "All Requirements" power supply program. In this program, MMWEC enters into bulk power purchase contracts and other arrangements to meet the power supply needs of its members as efficiently and economically as possible. The contribution in aid of construction represents non-refundable payments received from customers and developers for extension of electric services for assets owned and maintained by SELCO – Electric. The deferred gain is the difference between the carrying value of refunded debt and its reacquisition price, and, the deferred inflows related to pensions for future pension revenues is explained in note 4D. These amounts are deferred and recognized as inflows of resources in the period that the amounts become available.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Fund financial statements

In addition to liabilities, the governmental funds balance sheet will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, *deferred inflows of resources*, recorded in the government fund financial statements represents an acquisition of revenue that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has only one type of item, which arises only under a modified accrual basis of accounting that qualifies in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues for the Town's property, excise and other taxes; and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

N. Net Position and Fund Balances

In the Governmental-Wide financial statements, the difference between the Town's total assets, deferred outflows of resources, total liabilities and deferred inflows of resources represents net position. Net position displays three components – net investment in capital assets, restricted (distinguished between major categories of restrictions); and unrestricted. Unrestricted net position represents the net position available for future operations.

Net position classified as net investment in capital assets, consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Net position has been "restricted for" the following:

"Capital projects" represents amounts restricted for capital purposes.

"Federal and state grants" represents amounts restricted by the federal and state government for various programs.

"Permanent funds" represents amounts held in trust for which the expenditures are restricted by various trust agreements.

"Other purposes" represents restrictions placed on assets from outside parties.

"Depreciation" represents amounts set aside to pay for capital investments in the electric light department. The fund is allowed by state statute.

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of those resources.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned and unassigned.

Restricted fund balance. This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance. These amounts can only be used for specific purposes pursuant to constraints imposed by formal action of the Town's highest level of decision making authority, which is the Town meeting action and can be modified or rescinded only through these actions. Committed amounts cannot be used for any other purpose unless the Town removes or changes the specified use by taking the same type of action it employed to previously commit.

Assigned fund balance. This classification reflects the amounts constrained by the Town's "intent" to be used for specific purposes, but are neither restricted nor committed. Department heads and Town board/committees have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned fund balance. This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When the restricted and other fund balance resources are available for use, it is the Town's policy to use restricted resources first, followed by committed, assigned, and unassigned amounts respectively.

O. Long-term Debt

Long-term debt is reported as liabilities in the government-wide and proprietary funds statement of net position.

The face amount of governmental funds long-term debt is reported as other financing sources.

P. Compensated Absences

The Town grants to employees sick and vacation leave in varying amounts based upon length of service and in accordance with various individual union contracts. For Town employees, individuals are provided for a maximum of 20 days of accumulated sick leave. To be eligible, the individual must have accumulated a minimum of 150 days of sick leave and have twenty or more years of continuous service to the Town. Upon retirement, termination, or death, certain employees are compensated for unused vacation and sick leave (subject to certain limitations) at their current rates of pay.

Q. Pension Benefits

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Shrewsbury Contributory Retirement System (the System) and the Massachusetts Teachers Retirement System (MTRS) are provided. Additions to and deductions from the fiduciary net position have been determined on the same basis as they are reported by the Systems. For this purpose, benefit payments, including refunds of employee contributions, are recognized when due and payable according with the benefit terms. Investments are reported at their fair value.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

R. Post Retirement Benefits

In addition to providing pension benefits, health insurance coverage is provided for retired employees and their survivors in accordance with MGL, Chapter 32, on a pay-as-you-go basis. The cost of providing health insurance is recognized by recording the employer's share of insurance premiums at various percentages for retirees, spouses and surviving spouses in the general fund in the fiscal year paid.

S. Use of Estimates

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure for contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenditures/expenses during the fiscal year. Actual results could vary from estimates that were used.

T. Total Column

The total column on the fund financial statements is presented only to facilitate financial analysis. Data in this column is not the equivalent of consolidated financial information.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

An annual budget is adopted for the Town's General Fund. Although legislative approval is required for the acceptance of grants, capital projects, and borrowing authorizations, annual budgets are not prepared for any other fund; therefore, comparison of budget to actual is only presented for the General Fund.

The Town must establish its property tax rate each year so that the property tax rate levy will comply with the limits established by Proposition 2 1/2, as amended, and also equal the sum of (a) the aggregate of all annual appropriations for expenditures, plus (b) provision for prior year deficits, if any, less (c) the aggregate of all non-property tax revenues estimated to be received, including available funds.

- The Town follows these procedures in establishing the General Fund budgetary data as reflected in the financial statements:
- All boards, officers and committees of the Town shall annually, at the request of the town manager, submit in writing a detailed estimate of the appropriations required for the efficient and proper conduct of their respective departments and offices during the next fiscal year.
- Not less than ninety days prior to the date of the start of the annual Town meeting, the town manager shall submit to each member of the finance committee and of the board of selectmen, a copy of the annual budget.
- The finance committee shall consider the annual budget prepared by the Town manager and may confer with Town boards, officers, and committees and may hold hearings if they deem it advisable.
- The finance committee shall thereupon approve or disapprove the amount. The committee shall furnish to the selectmen on or before April 1st of each year a report with the recommendations and the same shall be printed and ready for distribution at the annual Town meeting.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

- The budget is legally enacted by vote at the annual Town meeting.
- Supplemental appropriations may be made from available funds after the setting of the tax rate with Town meeting approval.

Massachusetts law requires cities and towns to provide a balanced budget. Section 23 of Chapter 59 of the Massachusetts General Laws states, in part,

"The assessors shall annually assess taxes to an amount not less than the aggregate of all amounts appropriated, granted or lawfully expended by their respective towns (cities) since the preceding annual assessment and not provided for therein . . ."

For fiscal year 2017, the Town incurred a final budget deficit of \$11,380,995 for the General Fund.

The Town voted from the following sources to fund the deficit budget during the fiscal year:

Unassigned fund balance:	
Free cash votes	\$ 3,840,907
Reserve for deficits	(1,396)
Prior year's encumbrances	7,541,484
	<u>\$ 11,380,995</u>

B. Deficit Fund Balances

The following funds have deficits at June 30, 2017 as measured by the balance of unreserved fund balance:

- The *Library Building Project* capital project fund, and Major Fund, has a deficit of \$1,787,763. The Town has a temporary bond anticipation note outstanding of \$4,055,000 for this project. The deficit will be eliminated upon the future receipt of grant funds and upon the issuance of permanent debt.
- The *Spring and Paton Schools' heating systems* capital project fund has a deficit of \$3,209,514. The Town has a temporary bond anticipation note outstanding of \$3.5 million for this project. The deficit will be eliminated upon the issuance of permanent debt.
- The *Water Treatment Facility Design* capital project fund has a deficit of \$79,657. The Town has a temporary bond anticipation note outstanding of \$94,000 for this project. The deficit will be eliminated upon the issuance of permanent debt.

3. DETAILED NOTES

A. Deposits and Investments

Custodial Credit Risks – Deposits – Town's Financials

Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned. The Town does not have a deposit policy for custodial credit risk. Deposits at June 30, 2017 were \$51,809,710. Of these deposits, \$16,416,910 are exposed to custodial credit risk as uninsured and uncollateralized.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Custodial Credit Risks – Deposits – Shrewsbury Contributory Retirement System

Custodial credit risk is the risk that in the event of a bank failure, the System’s deposits may not be returned. The System does not have a deposit policy for custodial credit risk.

Deposits at December 31, 2016 were \$560,035. Of these deposits, none are exposed to custodial credit risk as uninsured and uncollateralized.

Investment Policies – Town Financials

Investments of funds, except for trust funds, are generally restricted by Massachusetts General Laws, Chapter 44, Section 55. That statute permits investments of available revenue funds and bond and note proceeds in term deposits and certificates of deposit of banks and trust companies, in obligations issued or unconditionally guaranteed by the federal government or an agency thereof with a maturity of not more than one year, in repurchase agreements with a maturity of not more than 90 days secured by federal or federal agency securities, in participation units in the Massachusetts Municipal Depository Trust (“MMDT”), or in shares in SEC-registered money market funds with the highest possible rating from at least one nationally recognized rating organization.

The MMDT is an investment pool created by the Commonwealth under the supervision of the State Treasurer’s office. According to the State Treasurer, the Trust’s investment policy is designed to maintain an average weighted maturity of 90 days or less and is limited to high-quality, readily marketable fixed income instruments, including U. S. Government obligations and highly-rated corporate securities with maturities of one year or less. The MMDT is an external investment pool that meets the criteria established under GASB Statement No. 79 to report its investments at amortized cost. MMDT’s fair value is measured at amortized cost.

As of June 30, 2017, the Town had the following investments and maturities:

Investment Type	Fair Value	Investment Maturities (in Years)	
		Less Than 1	1 to 5
Debt Securities:			
U. S. treasury obligations	\$ 4,042,246	\$ -	\$ 4,042,246
U. S. government agencies	21,095,589	-	21,095,589
Bond mutual funds	3,446,752	3,446,752	-
Corporate bonds	6,172,892	1,932,681	4,240,211
Money market mutual fund	5,247,278	5,247,278	-
	<u>40,004,757</u>	<u>\$ 10,626,711</u>	<u>\$ 29,378,046</u>
Other Investments:			
Certificates of deposits	4,040,299		
Equity mutual funds	2,204,837		
Equity securities - domestic	1,205,782		
MMDT	1,899,722		
	<u>\$ 49,355,397</u>		

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Custodial Credit Risks

For an investment, custodial risk is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the Town's \$49,355,397 in investments, none were uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department but not in the Town's name. The Town has no policy on custodial credit risk.

Interest Rate Risk

The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The Town's exposure to credit risk as of June 30, 2017 is as follows:

Related Debt Instruments	Fair Value
Moody's Quality Ratings	
<i>U. S. Treasury Obligations:</i>	
Aaa	\$ 4,042,246
<i>U. S. Government Agencies:</i>	
Aaa	21,095,589
<i>Corporate Bonds:</i>	
A1	164,960
A2	374,291
A3	1,644,195
Baa1	3,989,446
<i>Bond Mutual Funds:</i>	
Not rated	3,446,752
<i>Money Market Mutual Funds:</i>	
Not rated	5,247,278
	\$ 40,004,757

Concentration of Credit Risk

The Town places no limit on the amount the Town may invest in one issuer. More than 5 percent of the Town's investments are Federal Home Loan Mortgage Corporation amounting to 38.84% of the Town's total investments.

Fair Value of Investments

The Town categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

The Town has the following recurring fair value measurements as of June 30, 2017:

Investment Type	Fair Value	Fair Value Measurements		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by Fair Value Level:				
U. S. treasury obligations	\$ 4,042,246	\$ 4,042,246	\$ -	\$ -
U. S. government agencies	21,095,589	21,095,589	-	-
Certificates of deposit	4,040,299	4,040,299	-	-
Equity mutual funds	2,204,837	2,204,837	-	-
Equity securities - domestic	1,205,782	1,205,782	-	-
Money market mutual fund	5,247,278	5,247,278	-	-
Bond mutual funds	3,446,752	-	3,446,752	-
Corporate bonds	6,172,892	-	6,172,892	-
	<u>47,455,675</u>	<u>\$ 37,836,031</u>	<u>\$ 9,619,644</u>	<u>\$ -</u>
Investments Measured at Amortized Cost:				
External Investment Pools (MMDT)	<u>1,899,722</u>			
Total Investments	<u>\$ 49,355,397</u>			

Investments classified in Level 1 of the fair value hierarchy are valued using quoted prices in active markets for those securities.

Investments classified in Level 2 are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Investment Policies – Shrewsbury Contributory Retirement System

Under the Public Employee's Retirement Administration Commission (PERAC) regulations, every retirement board shall file a statement of investment objectives with PERAC. Among the information to be filed are the investment policy, the rate of return expected, the expected level of risk, the asset mix, the degree of diversification, and other pertinent financial information. At all times, the Board's investments are subject to certain limitations set forth in Massachusetts General Laws, Chapter 32. Any investment not specifically addressed in these guidelines is not allowed.

Specific policies for investments of funds for the system that have been approved by PERAC, are as follows:

- Fixed income investments shall be permitted in obligations of the United States or obligations guaranteed as to principal and interest by the Government of the United States, agency securities, corporate bonds (Yankees and bond-like convertibles), municipal bonds, mortgage-back securities (MBS, CMBS and CMO's), and asset-backed securities.
- Fixed income investments shall have a minimum quality rating of Baa/BBB as rated by one or more recognized bond rating service at the time of purchase. Fixed income investments that are downgraded below Baa/BBB shall be liquidated within a reasonable period of time determined by the manager so as not to be detrimental to the plan. If the manager determines it prudent to hold an investment that has been downgraded below Baa/BBB, they will be required to report at least monthly the status of said bond and reasons for holding said bond.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

- No more than five percent of the total market value of all fixed income investments shall be invested in debt obligations of any one fixed income issuer except for securities issued and guaranteed by the United States Government, or its agencies, which may be held without limitations.
- For the purposes of these guidelines, convertible bonds and convertible preferred stocks shall be considered fixed income investments.

Miscellaneous provisions:

- Use of swaps, primes, scores or other similar products are prohibited.
- Use of margin buying is prohibited.
- Use of derivative investments including but not limited to: Forwards, future options, warrants, hedging, or structured investments which display derivative like characteristics are prohibited. CMO's and mortgage-backed securities are not considered derivative investments for the purposes of these guidelines. Short selling of securities is prohibited. Unregistered or restricted stocks are prohibited. Commodities are prohibited.
- Commingled or mutual funds with the exception of bank STIF funds are prohibited.
- Yankee bonds are limited to 5% of the fixed income portfolio.
- The portfolio shall comply at all times with applicable laws and regulations. For the purposes of these guidelines, if at any time this document is found to be in conflict with applicable laws and regulations, the statute shall prevail.

As of December 31, 2016, all the System's investments are in the Pension Reserve Investment Trust (PRIT).

As of December 31, 2016, the System investments of \$106,206,324 were invested in Pension Reserves Investment Trust (PRIT) Fund. The PRIT Fund is a pooled investment fund created under the supervision of the Pension Reserves Investment Management (PRIM) Board. The PRIT is an external investment pool that meets the criteria established under GASB Statement No. 79 to report its investments at amortized cost. PRIT's fair value is measured at amortized cost.

Custodial Credit Risks - Investments

For an investment, custodial risk is the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the System's \$106,206,324 in investments, none are uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department but not in the System's name. The System has no policy on custodial credit risk.

Interest Rate Risk

The System does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The System limits investments in bonds with a minimum quality rating of Baa or equivalent as rated by one or more recognized bond rating services, however, 10% of the market value of fixed income investments may be invested in bonds with a minimum quality rating of Ba or equivalent as rated by one or more recognized bond rating services.

The System's had no exposure to credit risk as of December 31, 2016.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Concentration of Credit Risk

The System may invest up to 15% of the account's assets in high yield securities on an opportunistic basis. There are no qualified investments that are more than 5 percent.

B. Receivables

At June 30, 2017, receivables for the individual major governmental funds, non-major governmental funds, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	Gross Amount	Allowance for Uncollectibles	Net Amount
Major and non-major governmental funds:			
Property taxes	\$ 958,568	\$ (37,896)	\$ 920,672
Tax liens	485,615	(112,315)	373,300
Excise taxes	849,813	(472,444)	377,369
User Charges	483,028	(1,000)	482,028
Departmental	97,336	-	97,336
Special assessments	109,780	-	109,780
Due from other governments	15,253,395	-	15,253,395
Fiduciary funds:			
<i>Shrewsbury Employees Retirement System (at December 31, 2016):</i>			
Accounts Receivable	25,197	-	25,197
	<u>\$ 18,262,732</u>	<u>\$ (623,655)</u>	<u>\$ 17,639,077</u>

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

At June 30, 2017 and (December 31, 2016 for the electric light and cable enterprise funds), receivables for the business-type activities consist of the following:

	Gross Amount	Allowance for Uncollectibles	Net Amount
Sewer activities:			
User charges	\$ 895,326	\$ (2,000)	\$ 893,326
Special assessments	481,715	-	481,715
	1,377,041	(2,000)	1,375,041
 Solid waste activities:			
User charges	65,700	-	65,700
 Electric Light activities:			
User charges	2,342,772	(141,000)	2,201,772
Other	888,933	-	888,933
Loan receivable	164,797	-	164,797
	3,396,502	(141,000)	3,255,502
 Cablevision activities:			
User charges	1,533,702	(169,000)	1,364,702
Other	46,360	-	46,360
	1,580,062	(169,000)	1,411,062
	\$ 6,419,305	\$ (312,000)	\$ 6,107,305

The composition of other receivables in the electric light enterprise fund as of December 31, 2016 is as follows:

Due from Town departments	\$ 448,944
Due from MMWEC	200,956
SELCO - Cable	147,556
Liens	14,995
Merchandise and jobbing receivable	13,093
Other	63,389
	\$ 888,933

The composition of other receivables in the cablevision enterprise fund as of December 31, 2016 is as follows:

Advertising receivables	\$ 28,498
Other	17,862
	\$ 46,360

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

The composition of amounts due from other governments as of June 30, 2017 for governmental funds is as follows:

Governmental Funds:

General Fund:

Commonwealth of Massachusetts:

Department of Revenue:

Homeless transportation \$ 6,195

Department of Veterans Services:

Veterans benefits 104,391

Massachusetts School Building Authority

School Building Assistance - Capital portion 12,660,748 \$ 12,771,334

Nonmajor Governmental Funds:

U. S. Department of Education:

School title grants 39,948

Commonwealth of Massachusetts:

Executive Office of Public Safety & Homeland Security:

Public safety grants 2,864

Massachusetts Emergency Management Agency 2,909

Massachusetts Department of Transportation:

Highway Department - Chapter 90 funds 2,436,340 2,482,061

\$ 15,253,395

C. Deferred Inflows of Resources – Unavailable Revenue

Government-wide financial statements

The government-wide financial statements statement of net position includes a separate section, listed below total assets, for *deferred outflows of resources*. The items in this category are *deferred loss on refunding and deferred outflows related to pensions*. A deferred loss is the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or the refunding debt. The current balance is \$216,154 and is amortized until fiscal year 2025. The governmental and business-type activity outflows as related to pensions are explained in note 4D.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

In addition to liabilities, the statement of net position will sometimes report a separate section for *deferred inflows of resources*. The Town has five types of items which qualify in this category as explained below. The governmental and business-type activities inflows as related to pensions are explained in note 4D.

Governmental type funds *deferred inflows of resources* is a deferred gain on refunding. A deferred gain is the difference between the carrying value of refunded debt and its reacquisition price. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The current balance is \$444,895 and is amortized until fiscal year 2022.

Business-type funds *deferred inflows of resources* is the rate stabilization reserve, all requirements select energy termination trust and contribution in aid of construction.

The rate stabilization reserve is the offset of the restricted cash which was created as an aftermath of deregulation. The Municipal Light Departments of Massachusetts Reserve Trust was created and established in anticipation of the restructuring of the electric industry in Massachusetts, and in recognition of the fact that as such restructuring occurs. The current balance is \$4,113,208.

The all requirements select energy termination trust fund is an irrevocable trust established to protect the funds from creditors of both the MMWEC and the participants. In this program, MMWEC enters into bulk power purchase contracts and other arrangements to meet the power supply needs of its members as efficiently and economically as possible. One of the contracts that MMWEC entered into on behalf of the All Requirements participants was the "Select Energy Contract." The Select Energy contract (terminated during the third quarter of 2005) provided system power for a term that ran through 2011. MMWEC on behalf of the ten All Requirements participants received \$82,000,000 in proceeds which they deposited in a custodial account for the benefit of the current participants. The funds are to be used to offset power costs for replacement of energy and capacity above the costs that would have been incurred with the Select Energy contract. SELCO's portion of the \$82,000,000 buy-out was \$26,568,000. The current balance is \$1,179,332.

The contribution in aid of construction current balance is \$153,439.

Fund financial statements

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. At the end of the current fiscal year, the various components of deferred inflows of resources reported in the governmental funds are as follows:

Governmental Funds:

General fund:

Property taxes	\$	609,420	
Tax liens		373,300	
Excise taxes		377,369	
User charges		482,028	
Departmental		32,590	
Special assessments		68,390	
Due from other governments		12,740,065	\$ 14,683,162

Nonmajor governmental funds:

Departmental		89,072	
Special assessments		41,390	
Due from other governments		2,272,254	2,402,716
			\$ 17,085,878

TOWN OF SHREWSBURY, MASSACHUSETTS

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental Activities:

General government	\$ 38,912
Public safety	493,260
Public works	1,655,708
Education	5,032,624
Health and human services	74,479
Culture and recreation	613,926
Total depreciation expense - governmental activities	<u>\$ 7,908,909</u>

Business-Type Activities:

Sewer enterprise fund	\$ 836,699
Electric light enterprise fund	1,956,280
Cablevision enterprise fund	2,203,016
Total depreciation expense - business-type activities	<u>\$ 4,995,995</u>

E. Interfund Receivables, Payables and Transfers

Interfund transfers for the fiscal year ended June 30, 2017, are summarized below:

Transfers Out:	Transfers In:			Total
	General fund	Nonmajor Governmental fund	Business-type fund	
General fund	\$ -	\$ 1,067,773	\$ 847,480	\$ 1,915,253
Nonmajor governmental funds	931,999	-	427,000	1,358,999
Business-type fund	1,336,702	-	-	1,336,702
Total transfers out	<u>\$ 2,268,701</u>	<u>\$ 1,067,773</u>	<u>\$ 1,274,480</u>	<u>\$ 4,610,954</u>

The remaining \$3,373 amount shown on the Statement of Activities represents a transfer that took place when the year-end conversion occurred from a fiscal year June 30th end to a calendar year December 31st year end for the enterprise funds.

F. Short-Term Financing

Under the general laws of the Commonwealth and with the appropriate local authorization the Town is authorized to borrow funds on a temporary basis to (1) fund current operations prior to the collection of revenues, by issuing revenue anticipation notes, (2) fund grants prior to reimbursements, by issuing grant anticipation notes, and (3) fund capital projects costs incurred prior to selling permanent debt by issuing bond anticipation notes.

TOWN OF SHREWSBURY, MASSACHUSETTS

Massachusetts Clean Water Trust (MCWT)

The Town is scheduled to be subsidized by the Massachusetts Clean Water Trust (MCWT) on a periodic basis for principal in the amount of \$5,859,963 and interest costs of \$1,427,361 for seven loans which the Town has borrowed from MCWT. The gross amount outstanding at June 30, 2017 for principal and interest combined for the loans is \$5,307,713. The net repayments, including interest, are scheduled to be \$5,272,401. Since the Town is legally obligated for the total amount of the debt, such amounts for the gross principal have been recorded on the financial statements. The fiscal year 2017 principal and interest subsidies totaled \$11,011.

Legal Debt Limit

Under Section 10 of Chapter 44 of the Massachusetts General Laws a Town may authorize indebtedness up to a limit of five percent of its equalized valuation of the Town. Debt issued in accordance with this section of the law is designated as being "inside the debt limit." The Town's inside debt at June 30, 2017 totaled \$41,684,973.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

In addition, the Town is authorized to incur debt outside of that limit for specific purposes. Such debt, when issued, is designated as being "outside the debt limit." The following is a computation of the legal debt limit as of June 30, 2017:

Equalized Valuation-Real Estate and Personal Property (2016)		<u>\$ 5,538,400,100</u>	
Debt Limit: 5 % of Equalized value		276,920,005	
Total Debt Outstanding	\$ 62,500,689		
Less: Debt Outside Debt Limit	<u>(20,815,716)</u>	<u>41,684,973</u>	
Inside Debt Excess Borrowing Capacity at June 30, 2017		<u>\$ 235,235,032</u>	

Loans Authorized and Unissued - Memorandum Only

Under the general laws of the Commonwealth of Massachusetts a Town must authorize debt at a Town meeting. This authorized debt does not have to be actually issued at that time and remains authorized until the debt is actually issued or Town meeting votes to rescind the authorized debt.

Loan authorizations that have not been issued as permanent long term debt of June 30, 2017 and are not reflected in the Town's financial statements are as follows:

Date Town Meeting Authorized	Purpose	Amount
10/21/2013	Public Library construction and renovations	\$ 5,300,000
9/26/2016	New water treatment facility engineering and designs	806,000
9/26/2016	New water treatment facility construction	13,985,000
12/5/2016	Beal School Early Childhood Center feasibility study with assistance from the Massachusetts School Building Administration	1,200,000
		<u>\$ 21,291,000</u>

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

I. Special Trust Funds

Stabilization Fund

Under Section 5B of Chapter 40 of the Massachusetts General Laws, the Town may for the purpose of creating a stabilization fund appropriate in any year an amount not exceeding ten percent of the amount raised in the preceding year by taxation of real estate and tangible personal property or such larger amount as may be approved by the Emergency Finance Board. The aggregate amount in the fund at any time shall not exceed ten percent of the equalized valuation of the Town and any interest shall be added to and become a part of the fund. The stabilization fund may be appropriated in a Town at a town meeting for any lawful purpose.

At June 30, 2017 the balance in the stabilization fund is \$867,387 and is reported in the General Fund as unassigned fund balance.

4. OTHER INFORMATION

A. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The Town has obtained a variety of commercial liability insurance policies which passes the risk of loss listed above to independent third parties.

Settlement claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

SELCO-Electric participates in Massachusetts Municipal Self Insurance Trust (the Trust) with 17 other municipal light departments for the purpose of sharing general liability risks. Through the Trust, SELCO-Electric is insured for \$500,000 per occurrence, with a \$50,000 deductible. Environmental insurance coverage provides for \$1.5 million per occurrence, with a \$100,000 deductible that would be paid by both SELCO-Electric and the Trust. Each participating light department contributes to the Trust based on its share of the group's total kilowatt-hour sales. Participants for claims over the deductible limit are funded by Trust assets, or, if required, additional contributions from the participants.

Generally accepted accounting principles require that liabilities for self-insured claims be reported if it is probable that a loss has been incurred and the amount can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. At December 31, 2016, SELCO-Electric considers its' pro rata share of these losses to be immaterial.

B. Contingent Liabilities

Litigation is subject to many uncertainties, and the outcome of individual matters is not always predictable. Although the amount of the liability, if any, at June 30, 2017, cannot be ascertained, management believes any resulting liability should not materially affect the financial position at June 30, 2017.

The Town has received state and federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for any expenditure disallowed under the terms of the grant. The amount, if any, of expenditures which may be disallowed cannot be determined at this time, although, based on prior experience, Town management believes such disallowances, if any, will not be material.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Shrewsbury Electric and Cable Operations (SELCO)

The Town of Shrewsbury, acting through Shrewsbury Electric and Cable Operations (SELCO) – Electric (Department), is a Participant in certain Projects of the Massachusetts Municipal Wholesale Electric Company (MMWEC).

Electric Light Enterprise Fund – Commitments and Contingencies

Power Sales Agreement

MMWEC is a public corporation and a political subdivision of the Commonwealth of Massachusetts created as a means to develop a bulk power supply for its Members and other utilities. MMWEC is authorized to construct, own or purchase ownership interests in, and to issue revenue bonds to finance, electric facilities (Projects). MMWEC has acquired ownership interests in electric facilities operated by other utilities and also owns and operates its own electric facilities. MMWEC sells all of the capability (Project Capability) of each of its Projects to its Members and other utilities (Project Participants) under Power Sales Agreements (PSAs). Among other things, the PSAs require each Project Participant to pay its pro rata share of MMWEC's costs related to the Project, which costs include debt service on the revenue bonds issued by MMWEC to finance the Project, plus 10% of MMWEC's debt service to be paid into a Reserve and Contingency Fund.

In addition, should Project Participant fail to make any payment when due, other Project Participants of that Project may be required to increase (step up) their payments and correspondingly, their Participant's share of that Project's Project Capability to an additional amount not exceed 25% of their original Participant's share of that Project's Project Capability. Project Participants have covenanted to fix, revise, and collect rates at least sufficient to meet their obligations under the PSAs.

MMWEC has issued separate issues of revenue bonds for each of its eight Projects, which are payable solely from, and secured solely by, the revenues derived from the Project to which the bonds relate, plus available funds pledged under MMWEC's Amended and Restated General Bond Resolution (GBR) with respect to the bonds of that Project. The MMWEC revenues derived from each Project are used solely to provide for the payment of the bonds of any bond issue relating to such Project and to pay MMWEC's cost of owning and operating such Project and are not used to provide for the payment of the bonds of any bond issue relating to any other Project.

MMWEC operates the Stony Brook Intermediate Project and Stony Brook Peaking Project, both fossil-fueled power plants. MMWEC has a 3.7% interest in the W. F. Wyman Unit No. 4 plant, which is operated and owned by its majority owner, FPL Energy Wyman IV, LLC, a subsidiary of NextEra Energy Resources LLC, and a 4.8% ownership interest in the Millstone Unit 3 nuclear unit, operated by Dominion Nuclear Connecticut, Inc. (DNCI), the majority owner and an indirect subsidiary of Dominion Resources, Inc. DNCI also owns and operates Millstone Unit 2 nuclear unit. The operating license for the Millstone Unit 3 nuclear unit extends to November 25, 2045.

A substantial portion of MMWEC's plant investment and financing program is an 11.6% ownership interest in the Seabrook Station nuclear generating unit operated by NextEra Energy Seabrook, LLC (NextEra Seabrook), the majority owner and an indirect subsidiary of NextEra Energy Resources LLC. The operating license for Seabrook Station extends to March 15, 2030. NextEra Seabrook has submitted an application to extend the Seabrook Station operating license for an additional 20 years.

Pursuant to the PSAs the MMWEC Seabrook and Millstone Project Participants are liable for their proportionate share of the costs associated with decommissioning the plants, which costs are being funded through monthly Project billings. Also, the Project Participants are liable for their proportionate share of the uninsured costs of a nuclear incident that might be imposed under the Price-Anderson Act (Act). Originally enacted in 1957, the Act has been renewed several times. In July 2005, as part of the Energy Policy Act of 2005, Congress extended the Act until the end of 2025.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Shrewsbury Electric and Cable Operations have entered into PSAs and Power Purchase Agreements (PPAs) with MMWEC. Under both PSAs and PPAs, the SELCO-Electric is required to make certain payments to MMWEC payable solely from SELCO-Electric's revenues. Under the PSAs, each participant is unconditionally obligated to make all payments due to MMWEC, whether or not the Project(s) is completed or operating and notwithstanding the suspension or interruption of the output of the Project(s).

MMWEC is involved in various legal actions. In the opinion of MMWEC management, the outcome of such litigation or claims will not have a material adverse effect on the financial position of the company.

As of December 31, 2016 total capital expenditures for MMWEC's Projects amounted to \$1,636,374,000, of which \$77,969,000 represents the amount associated with the SELCO-Electric's Project Capability. MMWEC's debt outstanding for the Projects from Power Supply System Revenue Bonds totals \$55,795,000, of which \$2,885,000 is associated with the SELCO-Electric's share of Project Capability. As of December 31, 2016, MMWEC's total future debt service requirement on outstanding bonds issued for the Projects is \$59,281,000, of which \$3,068,000 is anticipated to be billed to the SELCO-Electric in the future.

The aggregate amount of Shrewsbury Electric and Cable Operation's required payments under the PSAs and PPAs, exclusive of the Reserve and Contingency Fund billings, to MMWEC at December 31, 2016, and estimated for future years is shown below.

For years ended December 31, 2017	\$	2,459,000
2018		200,000
2019		409,000
		<u>3,068,000</u>
	\$	<u>3,068,000</u>

In addition, under the PSA's, the Department is required to pay to MMWEC its share of the Operation and Maintenance (O&M) costs of the Projects in which it participates. The Department's total O&M costs including debt service under the PSA's was \$7,356,000 for the year ended December 31, 2016.

Other Power Supply: The Department has entered into a Service Agreement with MMWEC, under which MMWEC performs bulk power supply services to the Department, including services related to owned generation, purchased power contracts or other power supply arrangements.

Under the terms of the Service Agreement, the Department is committed to purchase additional power through MMWEC in the amount of \$6,090,137 in 2017, \$4,336,797 in 2018, \$2,700,401 in 2019 and \$1,690,549 in 2020.

Berkshire Wind Cooperative Corporation: SELCO-Electric (Department) is a member of the Berkshire Wind Cooperative Corporation.

The Cooperative is organized under Chapters 157 and 164: Section 47C of the State of Massachusetts statutes and constitutes a municipal lighting plant cooperative. The Cooperative was formed by Massachusetts Municipal Wholesale Electric Company (MMWEC) and 14 Municipal Light Department (Members) for the purpose of financing, owning, constructing and operating wind generation facilities located on Brodie Mountain in the towns of Hancock and Lanesborough, Massachusetts (Berkshire Wind Facility).

The Cooperative has constructed and installed 10 1.5-megawatt wind turbines at the Berkshire Wind Facility. The Cooperative provides wind energy to MMWEC pursuant to the Berkshire Wind Power purchase Agreement dated May 21, 2008 between MMWEC and the Cooperative. Under this agreement, MMWEC entered into a Power Sales Contract with the Cooperative pursuant to which MMWEC has agreed to purchase 100% of the capacity and energy output and, to the extent uncommitted to any third party under existing agreements, associated environment energy attributes of a wind power generating facility to be owned, constructed and operated by the Cooperative at the Berkshire Wind Facility.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

MMWEC sells all of the capability of the Berkshire Wind Facility (Capability) to the Members of the Cooperative (Members) under Power Purchase Agreements (PPAs). Among other things, the PPAs require each Cooperative Member to pay its pro rata share of the costs related to the Berkshire Wind Facility, which costs include debt service on the bonds issued by the Cooperative to finance the Berkshire Wind Facility, plus 10% of the debt service to be paid into a Reserve and Contingency Fund. In addition, should a Cooperative Member fail to make any payment when due, other Cooperative Members may be required to increase (step-up) their payments and correspondingly their share of the Capability to an additional amount.

The Cooperative has issued revenue bonds, which are payable solely from, and secured solely by, the revenues derived from the Berkshire Wind Facility. The revenues are used solely to provide for the payment of any bond issue relating to the Berkshire Wind Facility and to pay the Cooperative's cost of owning and operating the Berkshire Wind Facility.

The Shrewsbury Electric & Cable Operations has entered into a PPA with the Berkshire Wind Cooperative Corporation. Under the PPA, the Department is required to make certain payments to the Cooperative. Under the PPA, each Participant is unconditionally obligated to make all payments due to the Berkshire Wind Cooperation Corporation, whether or not the Berkshire Wind Facility is completed or operating, and notwithstanding the suspension or interruption of the output of the Berkshire Wind Facility. In addition, under the PPA, the Department is required to pay the Cooperative its share of the Operation and Maintenance (O&M) costs of the Berkshire Wind Facility.

As of December 31, 2016, total capital expenditures for the Berkshire Wind Facility amounted to \$59,256,145, of which \$7,536,000; represents the amount associated with the Department's share of the Capability of the Berkshire Wind Facility of which it is a member, although such amount is not allocated to the Department. The Cooperative's debt outstanding for the Berkshire Wind Facility includes bonds totaling \$52,855,000, of which \$6,722,000 is associated with the Department's share of Capability of the Berkshire Wind Facility of which it is a Member, although such amount is not allocated to the Department. As of December 31, 2016, the Cooperative's total future debt service requirement on outstanding bonds issued for the Projects is \$75,587,000 of which \$9,613,000 is anticipated to be billed to the Department in the future.

The estimated agreement amount of the Shrewsbury Electric & Cable Operations required payments under the PSA, exclusive of the Reserve and Contingency Fund billings, to the Cooperative at December 31, 2016 and estimated for future years is shown below:

For years ended December 31, 2017	\$	687,000
2018		687,000
2019		687,000
2020		686,000
2021		687,000
2022-2026		3,433,000
2027-2030		2,746,000
	\$	<u><u>9,613,000</u></u>

Cablevision Enterprise Fund – Commitments and Contingencies

The cablevision enterprise fund is committed under long-term signal purchase contracts expiring on various dates through 2021.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

The following is a schedule by years of the aggregate amount of such required purchases as of December 31, 2017:

For years ended December 31, 2017	\$	6,906,111
2018		6,456,735
2019		5,794,572
2020		3,654,871
2021		2,068,236
		<u>24,880,525</u>
	\$	<u>24,880,525</u>

Signal purchase expense under these contracts was \$7,568,258 in 2016.

C. Subsequent Events

Management has evaluated subsequent events through the date the financial statements were available to be issued.

D. Pension Plan

Plan Description

The Town is a member of the Shrewsbury Contributory Retirement System (the System). The System is a cost-sharing multiple-employer public employee retirement system administered by the Shrewsbury Retirement Board (the Board). Massachusetts General Laws (MGL), Chapter 32, assigns authority to establish the System and amend benefit provisions of the plan; which is regulated by the Public Employees Retirement Administration Commission (PERAC). The System is a defined benefit pension plan that covers substantially all employees of its member employers except for current and retired teachers. The System issues a publicly available financial report in accordance with guidelines established by the Commonwealth's PERAC. That report may be obtained by contacting the System at 100 Maple Avenue, Shrewsbury, Massachusetts.

The Town is a member of the Massachusetts Teachers' Retirement System (MTRS), a cost-sharing multi-employer defined benefit plan, to which the Town does not contribute. MTRS is managed by the Commonwealth of Massachusetts (Commonwealth) on behalf of municipal teachers and municipal teacher retirees. The Commonwealth is a nonemployer contributor and is responsible for the contributions and future benefit requirements of the MTRS.

Special Funding Situation

The Commonwealth is a nonemployer contributor and is responsible by statute to make all actuarially determined contributions and future benefit requirements on behalf of the Town to the MTRS. Therefore, the Town is considered to be in a special funding situation as defined by GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and the Commonwealth is a nonemployer contributor in the MTRS. Since the Town does not contribute directly to MTRS, there is no pension liability to recognize. The total of the Commonwealth provided contributions have been allocated based upon each employer's covered payroll to the total covered payroll of employers in MTRS as of the measurement date of June 30, 2016. The Town's portion of the collective pension expense contributed by the Commonwealth of \$13,655,048 on-behalf payments for the fiscal year ending June 30, 2017 is reported as intergovernmental revenues and employee benefits and insurance expenditures in the General Fund as of the measurement date.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Benefits Provided

Both the System and MTRS provide retirement, disability, and death benefits to plan members and beneficiaries. Members become vested after 10 years of creditable service and are eligible for retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. Retirement benefits are determined as a percentage of the member's final three-year (five-year for members hired on or after April 2, 2012) final average compensation times the member's years of creditable service prior to retirement. The percentage is based on the age of the member at retirement and his or her Group classification. The authority for amending these provisions rests with the Massachusetts Legislature.

Employees who resign from service and who are not eligible to receive a retirement allowance or are under the age of 55 are entitled to request a refund of their accumulated total deductions. Survivor benefits are extended to eligible beneficiaries of members whose death occurs prior to or following retirement.

Cost of living adjustments granted between 1981 and 1997 and any increases in other benefits imposed by the Commonwealth's State law during those years are borne by the Commonwealth and are deposited into the pension fund. Cost-of-living adjustments granted after 1997 must be approved by the Board and are borne by the System.

Contributions

MGL Chapter 32 governs the contributions of plan members and the Town. Plan members are required to contribute to the System at rates ranging from 5% to 9% based upon their membership date of gross regular compensation with an additional 2% contribution after exceeding \$30,000 in annual covered compensation. The Town is required to pay into the System its share of the system-wide actuarial determined contribution that is apportioned among the employers based on active current payroll. Administrative expenses are funded through investment earnings. The Town's proportionate share of the required contribution to the System for the year ended December 31, 2016 was \$5,125,289, representing 21.3% of the covered payroll, an actuarially determined amount that, when combined with plan member contributions, is expected to finance the costs of benefits earned by plan members during the year and an additional amount to finance any unfunded accrued liability.

Pension Liability

As of June 30, 2017, the Town reported a liability of \$18,553,185 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2017. Accordingly, update procedures were used to roll forward the total pension liability to the measurement date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At December 31, 2016, the Town's proportional percentage was 98.345%, which was a slight increase from the last measurement.

Pension Expense

For the year ended June 30, 2017, the Town recognized a pension cost of \$2,722,474 and reported deferred outflows of resources related to pensions of \$7,201,115 from net differences between expected and actual experience, the differences between employer contributions and proportionate share of contributions, the net difference between projected and actual investment earnings on pension plan investments; and deferred inflows of resources related to pensions of \$3,782,873 from the net differences between expected and actual experience, the changes in assumptions and the differences between employer contributions and proportionate share of contributions.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

The Town's net deferred outflows/(inflows) of resources related to pensions will be recognized in the pension expense as follows:

For years ended June 30,	
2018	\$ 854,561
2019	854,561
2020	854,561
2021	854,559
	<u>\$ 3,418,242</u>

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of January 1, 2017, using the following actuarial assumptions, applied to all periods included in the measurement that was updated December 31, 2016:

Valuation date	January 1, 2017
Actuarial cost method	Individual Entry Age Normal
Asset valuation method	The actuarial value of assets is the market value as reported by the Public Employees' Retirement Administration Commission (PERAC).
Investment rate of return	7.5% per year
Projected salary increase	3.5% per year.
Cost of living adjustments	3.0% of the lesser of the pension amount and \$12,000 per year.
Mortality rates	Both pre-retirement and beneficiary mortality rates are reflected by the RP-2014 Blue Collar Mortality Table with Scale MP-2014, fully generational. Mortality for retired members for Group 1 and 2 is represented by the RP-2014 Blue Collar Mortality Table set forward five years for males and three years for females, fully generational. Mortality for retired members for Group 4 is represented by the RP-2014 Blue Collar Mortality Table set forward three years for males and six years for females, fully generational. Mortality for disabled members for Group 1 and 2 is represented by the RP-2000 Mortality table set forward 2 years. Generational adjusting is based on Scale MP-2014.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Best estimates of arithmetic real rates of return for each major class included in the pension plan's target asset allocation as of December 31, 2016, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	Weighted Average Rate of Return
Domestic Equity	40.0%	6.6%	2.64%
Fixed Income	22.5%	2.4%	0.54%
Foreign Equity	17.5%	3.7%	0.65%
Real Assets	10.0%	7.0%	0.70%
Private Equity	6.0%	11.1%	0.67%
Hedge Funds	4.0%	2.0%	0.08%
Total	<u>100%</u>	N/A	5.27%

Rate of Return

For the year ended December 31, 2016, the annual money-weighted rate of return (which expresses investment performance), net of investment expense was 8.35%.

Discount Rate

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarial determined rates based on the Board's funding policy, which establishes the contractually required rates by Statute and in accordance with Section 22D and Section 22F of MGL Chapter 32. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments or current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.50%. As well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate (amounts expressed in thousands):

	1% Decrease 6.50%	Current Discount Rate 7.50%	1% Increase 8.50%
Town's net pension liability	\$ 32,321,567	\$ 18,553,185	\$ 6,928,945

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

E. Other Post Employment Benefits Payable

GASB Statement No. 45

GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post Employment Benefits Other Than Pensions, requires Towns to account for OPEB, primarily healthcare, on an accrual basis rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially required contribution as an expense on the Statement of Activities when a future retiree earns the post employment benefits, rather than when they use them. To the extent that an entity does not fund their actuarially required contribution, a post employment benefit liability is recognized on the Statement of Net Position.

The cost of post employment benefits generally should be associated with the periods in which costs occur rather than in the future year when it will be paid. The Town adopted the requirements of GASB Statement No. 45 during the year ended June 30, 2009, and thus recognizes the cost of post employment benefits in the year when the employee services are received, reports the accumulated liability from prior years and provides information useful in assessing potential demands on the Town's future cash flows.

Plan Description

In addition to providing pension benefits as described on the following footnote, the Town provided post-employment health care and life insurance benefits for retired employees, their dependents and beneficiaries. The benefits, benefit levels, employee and employer contributions are governed by Massachusetts General Law chapter 32. As of the actuarial valuation date there are approximately 1,660 active and retired employees that meet the eligibility requirements. The plan does not issue a separate financial report.

Funding Policy

The contribution requirements of plan members and the Town are established and may be amended through Town policy and member contracts. The required contribution is based on the projected pay-as-you-go financing requirements. For the 2017 fiscal year, the Town premiums plus implicit costs for the retiree medical program are \$2,180,524 consisting of \$2,162,336 for the governmental activities and \$18,188 for the sewer business-type activities. For the calendar year 2016, the cablevision fund premiums plus implicit costs for the retiree medical program is \$116,932.

Annual OPEB Cost and Net OPEB Obligation

The Town's annual other postemployment benefit ("OPEB") cost (expense) is calculated based on the annual required contribution of the employer ("ARC"), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty (30) years.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

The following table shows the components of the Town's annual OPEB costs for the fiscal year, the amount actually contributed to the plan and changes in the Town's net OPEB obligation to the plan:

	Business-type Activities			Total
	Governmental Activities	Sewer Fund	Cable Operations Fund (As of December 31, 2016)	
Annual required contribution	\$ 6,675,907	\$ 22,798	\$ 74,002	\$ 6,772,707
Interest on net OPEB obligation	1,522,404	5,695	-	1,528,099
Adjustment to annual required contribution	(1,268,670)	(4,747)	-	(1,273,417)
Annual OPEB cost (expense)	6,929,641	23,746	74,002	7,027,389
Contributions made during the fiscal year	(2,162,336)	(18,188)	(116,932)	(2,297,456)
Increase in net OPEB obligation	4,767,305	5,558	(42,930)	4,729,933
Transfers to OPEB Trust Fund	-	-	(86,298)	(86,298)
Net OPEB Obligation - beginning of year	38,060,098	142,373	333,428	38,535,899
Net OPEB Obligation - end of year	<u>\$ 42,827,403</u>	<u>\$ 147,931</u>	<u>\$ 204,200</u>	<u>\$ 43,179,534</u>

The governmental activities and the sewer fund's annual OPEB cost, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation for the 2017 fiscal year and the two preceding years were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2017	\$ 6,953,387	31.36%	\$ 42,975,334
6/30/2016	\$ 6,646,407	30.93%	\$ 38,202,471
6/30/2015	\$ 6,609,421	34.71%	\$ 33,611,632

The cable television fund's annual OPEB cost, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation for the 2016 calendar year and the two preceding years was as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage Annual OPEB Cost Contributed	Net OPEB Obligation
12/31/2016	\$ 74,002	274.63%	\$ 204,200
12/31/2015	\$ 115,131	130.79%	\$ 333,428
12/31/2014	\$ 85,894	138.61%	\$ 368,878

Funded Status and Funding Process

As of June 30, 2016, the most recent valuation date, the actuarial liability for benefits was \$76,584,645 and the actuarial value of assets was \$808,727, resulting in a total unfunded actuarial accrued liability (UAAL) of \$75,775,918. The covered payroll (annual payroll of active employees covered by the plan) was \$65,004,420, and the ratio of the UAAL to the covered payroll was 116.6%.

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The Schedule of Funding Progress, presented as Required Supplementary Information following the Notes to the Financial Statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the Actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The Town OPEB actuarial valuation used the projected unit credit actuarial cost method. The OPEB liability is currently 1.06% funded and the actuarial assumptions include a funded interest rate of 7.5% per year, net of investment expense and an unfunded interest rate of 4.0% per year, net of investment expenses and medical care inflation trend of 5.0% in 2016 decreasing to an ultimate 4.5% in 2017.

The amortization period is a specific number of years that is counted from one date, declining to zero with the passage of time. Under the pay-as-you-go method, a 30-year open basis was used for the amortization. The amortization period is 30 years for all future valuations.

GASB Statement No. 74

The Town did establish a trust fund in order to contribute funds to reduce the future OPEB liability. The trust balance is \$3,477,444 as of June 30, 2017.

Investments

The OPEB Trust fund does not have a formal investment policy. As of June 30, 2017, investments, concentration and rate of return information consisted of pooled funds in the Town's Bartholomew Commonwealth Financial investments described earlier under Investment Policies (refer to note 3A).

Net OPEB Liability

The components of the net OPEB liability are as follows:

	June 30, 2017
Total OPEB liability	\$ 48,107,891
Less: Plan fiduciary net position	(3,292,451)
Town's Net OPEB liability	\$ 44,815,440
Plan fiduciary net position as a percentage of the total OPEB liability	6.84%

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of July 1, 2016, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified;

Valuation date	July 1, 2016
Actuarial cost method	Entry Age Normal
Investment rate of return	Full prefunding: 7.50% annually, net of investment expenses
Healthcare cost trend rates	2016 medical trend rates: 5.00% annually Ultimate trend rates: 4.50% annually in 2017
Mortality rates	Both pre-retirement and beneficiary mortality rates are represented by the RP-2014 Blue Collar Mortality Table with Scale MP-2015, fully generational. Mortality for retired members for Group 1 and 2 is represented by the RP-2014 Blue Collar Mortality Table set forward five years for males and three years for females, fully generational. Mortality for retired members for Group 4 is represented by the RP-2014 Blue Collar Mortality Table set forward three years for males and six years for females, fully generational. Mortality for disabled members for Group 1 and 2 is represented by the RP-2000 Mortality table set forward six years. Generational adjusting is based on Scale MP-2015.

Rate of Return

For the year ended June 30, 2017, the annual money-weighted rate of return (which expresses investment performance), net of investment expense was not provided.

Discount Rate

The discount rate used to measure the total OPEB liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and that member employer contributions will be made in accordance Massachusetts General Law Chapter 32. Based on those assumptions, the OPEB plan fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the Town's the net OPEB liability as well as what the Town's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

	1% Decrease	Current	1% Increase
	6.5%	Discount Rate	8.5%
	6.5%	7.5%	8.5%
Town's net OPEB liability	\$ 51,209,273	\$ 44,815,440	\$ 39,542,471

TOWN OF SHREWSBURY, MASSACHUSETTS
Notes to the Financial Statements
Year Ended June 30, 2017

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Trend Rates

The following presents the Town's the net OPEB liability as well as what the Town's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (3.5%) or 1-percentage-point higher (5.5%) than the current healthcare cost trend rates:

	1% Decrease	Healthcare	1% Increase
	3.5%	Cost Trend	5.5%
		Rates	
		4.5%	
Town's net OPEB liability	\$ 38,502,700	\$ 44,815,440	\$ 52,685,354

F. Implementation Of New GASB Pronouncements

The GASB issued Statement No. 74, *Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans*, for implementation in fiscal year 2017.

The GASB issued Statement No. 77, *Tax Abatement Disclosures*, for implementation in fiscal year 2017.

The GASB issued Statement No. 80, *Blending Requirements for Certain Component Units – an amendment of GASB Statement #14*, for implementation in fiscal year 2017.

The GASB issued Statement No. 82, *Pension Issues – an amendment of GASB No. 67, No. 68, and No. 73*, for implementation in fiscal year 2017.

G. Future GASB Pronouncements

Management is currently assessing the impact the implementation of the following pronouncements will have on the basic financial statements.

The GASB issued Statement No. 75, *Accounting and Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans*, for implementation in fiscal year 2018.

The GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*, for implementation in fiscal year 2018.

The GASB issued Statement No. 87, *Leases*, for implementation in fiscal year 2021.

To the Honorable Board of Selectmen
Town of Shrewsbury, Massachusetts

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Shrewsbury, Massachusetts, as of and for the year ended June 30, 2017, (except for the Shrewsbury Contributory Retirement System, the Shrewsbury Electric and Cable Operations (SELCO) – Electric and the Shrewsbury Electric and Cable Operations (SELCO) – Cable, which are as of and for the year ended December 31, 2016), and the related notes to the financial statements, which collectively comprise the Town of Shrewsbury, Massachusetts' basic financial statements, and have issued our report thereon dated February 21, 2018. Our report includes a reference to other auditors who audited the financial statements of the Shrewsbury Electric and Cable Operations (SELCO) – Electric and the Shrewsbury Electric and Cable Operations (SELCO) – Cable, as described in our report on the Town of Shrewsbury, Massachusetts' financial statements. This report does not include the results of the other auditors' testing of internal controls over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Shrewsbury, Massachusetts' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Shrewsbury, Massachusetts' internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Shrewsbury, Massachusetts' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Shrewsbury, Massachusetts' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM;
REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF
EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE**

To the Honorable Board of Selectmen
Town of Shrewsbury, Massachusetts

Report on Compliance for Each Major Federal Program

We have audited the Town of Shrewsbury, Massachusetts' compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Town of Shrewsbury, Massachusetts' major federal programs for the year ended June 30, 2017. The Town of Shrewsbury, Massachusetts' major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Town of Shrewsbury, Massachusetts' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of Shrewsbury, Massachusetts' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Town of Shrewsbury, Massachusetts' compliance.

Opinion on Each Major Federal Program

In our opinion, the Town of Shrewsbury, Massachusetts, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the Town of Shrewsbury, Massachusetts, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In

planning and performing our audit of compliance, we considered the Town of Shrewsbury, Massachusetts' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Shrewsbury, Massachusetts' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Shrewsbury, Massachusetts, as of and for the year ended June 30, 2017, (except for the Shrewsbury Contributory Retirement System, the Shrewsbury Electric and Cable Operations (SELCO) – Electric and the Shrewsbury Electric and Cable Operations (SELCO) – Cable, which are as of and for the year ended December 31, 2016), and the related notes to the financial statements, which collectively comprise the Town of Shrewsbury, Massachusetts' basic financial statements. We issued our report thereon dated February 21, 2018, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

TOWN OF SHREWSBURY, MASSACHUSETTS
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
JUNE 30, 2017

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal grant activity of the Town of Shrewsbury, Massachusetts, under programs of the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Town of Shrewsbury, Massachusetts, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Town of Shrewsbury, Massachusetts.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE C – INDIRECT COSTS

The Town of Shrewsbury, Massachusetts, has not charged any indirect costs to any of its federal award programs.

NOTE D – FOOD DISTRIBUTION

Nonmonetary assistance is reported in the Schedule at the fair market value of the commodities received and disbursed.

**TOWN OF SHREWSBURY, MASSACHUSETTS
