

How to transport safely:

- Keep materials in original containers.
- Tighten caps and lids.
- Sort by type, DO NOT BAG ANY ITEMS
- Pack in sturdy upright boxes.
- Never smoke while handling hazardous materials.
- NEVER MIX CHEMICALS

Things to Consider:

- DO NOT BAG your materials, it makes it difficult for us to assess them.
- BRING A BOOK: Lines can sometimes be long, especially in the first hour of a collection. We strive to keep wait times under a half-hour, but it is not always possible.
- Walk-ins (as opposed to drive-ins) are not allowed, due to safety issues.
- Cut off is 12:00 although cars that are in line and through the check-in table will be allowed to offload waste after 12:00 PM
